

## Heating & Cooling Improvements

### Smart Thermostat

#### Qualifying Products List

December 15, 2017

#### SMART THERMOSTAT

##### Requirements for Smart Thermostat Incentive:

- Offer is limited to Wisconsin customers of Focus on Energy participating utilities based on the home's primary heating system
  - Homes with a natural gas furnace must be a customer of a participating electric utility and gas utility
  - Homes with a natural gas boiler must be a customer of a participating gas utility
  - Homes with an air-source heat pump must be a customer of a participating electric utility
  - Homes heated by liquid petroleum (LP) gas or a geothermal heat pump are not eligible
  - Offer is limited to one incentive per home heating system and two per household
- Must replace an existing thermostat that does not qualify for program incentives
- Thermostat must be Wi-Fi capable
- Thermostat must be connected to the internet
- Thermostat must feature integrated occupancy-sensing capability, such as motion sensors and/or geofencing with setback. Occupancy sensing and corresponding auto set back functionality must be defaulted to on position.
- Thermostat must offer the above features without additional devices
- Application or connectivity service must be free of charge

**Incentive when installed with existing equipment: \$75 Incentive**

**Incentive when installed at the same time as qualified equipment: \$125**

In addition to the ENERGY STAR certified thermostats which are listed at <https://www.energystar.gov/productfinder/product/certified-connected-thermostats/results> the following models have been verified as eligible for this incentive. Additional requirements apply. Please visit [focusonenergy.com/smart](http://focusonenergy.com/smart) for complete details and to verify eligibility.
