

HEATING AND COOLING FLOOD RELIEF OVERVIEW

Getting your community back on track after recent storms

FOCUS ON ENERGY® has an immense pride in Wisconsin and its hometowns. We want to help restore local communities and help homeowners reduce their long-term energy costs.

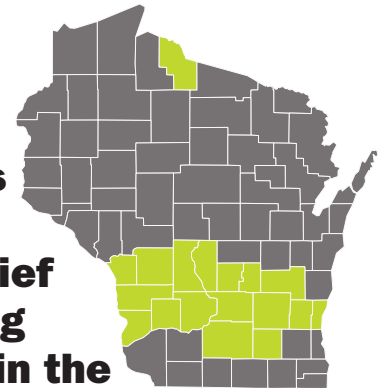

With this goal in mind, we've partnered with participating utilities to bring increased incentives to homes in your community.

For a limited time, from August 17, 2018 until March 1, 2019, the **Heating and Cooling Flood Relief Program** will serve select communities and providing eligible homes with:

- **Up to a 100% increase on select existing incentives** for completed heating and cooling equipment upgrades and replacements.*
- Water heater incentives.

*This means if a furnace qualifies for a \$125 Heating and Cooling Improvements path incentive, the Heating and Cooling Flood Relief Program will match the Heating and Cooling Improvements path incentive by up to 100%, so the furnace could now qualify for a \$250 incentive. These incentives do not apply to Tier 2 customers.

Focus on Energy's Heating and Cooling Flood Relief Program is serving select ZIP codes in the following counties:

- Adams
- Columbia
- Crawford
- Dane
- Dodge
- Fond du Lac
- Green Lake
- Iron
- Jefferson
- Juneau
- La Crosse
- Marquette
- Monroe
- Ozaukee
- Richland
- Sauk
- Vernon
- Washington

Program eligibility:

- Customers of participating Focus on Energy utilities.
- Property must be located in the above eligible counties, and on the select ZIP code list on the back.

To confirm eligibility and get started, visit focusonenergy.com/homefloodrelief or call **855.339.8866** for more information.

REDUCING ENERGY WASTE ACROSS WISCONSIN

Focus on Energy, Wisconsin utilities' statewide program for energy efficiency and renewable energy, helps eligible residents and businesses save energy and money while protecting the environment. Focus on Energy information, resources and financial incentives help to implement energy efficiency and renewable energy projects that otherwise would not be completed.
