

## ..... USE ENERGY SMARTER .....

### FOCUS ON ENERGY PROVIDES ENERGY SAVING SOLUTIONS TO HELP YOUR BUSINESS CONTROL ENERGY COSTS

<b>DESIGN ASSISTANCE</b>	Offering builders, developers and architects a customized whole-building energy analysis for new construction and major renovation projects over 5,000 square feet. The <b>Design Assistance Program</b> provides financial incentives and technical support to enhance the net energy efficiency of new facilities.
<b>MULTIFAMILY PROPERTIES</b>	Owners/managers of apartment and condo buildings with four or more units qualify for the <b>Multifamily Direct Install &amp; Energy Savings Programs</b> . The program offers building assessments, FREE in-unit direct install opportunities, and cash-back incentives on energy efficient equipment installations. New Construction is eligible.
<b>AGRICULTURE, SCHOOLS, &amp; GOVERNMENT</b>	A program for agricultural producers, tribes, federal, state, county, and municipal entities, K-12 schools, colleges and universities with up to 1,000 kW of demand per month. The <b>Agriculture, Schools &amp; Government Program</b> provides cash-back incentives for energy efficient equipment with the support of expert Energy Advisors. New Construction is eligible.
<b>CHAIN STORES &amp; FRANCHISES</b>	Retail, food service or food sales with five or more locations statewide are eligible for the <b>Chain Stores and Franchises Program</b> . The program offers Energy Advisor support and cash-back prescriptive and custom incentives on energy efficient technology including lighting, HVAC, commercial refrigeration, food service equipment and more. New Construction is eligible.
<b>SMALL BUSINESSES</b>	The <b>Small Business Program</b> is designed for businesses with less than 100 kW of demand per month. Includes personalized lighting assessment and installation of energy saving lighting and other products for low co-pays. Cash-back incentives available on other energy-efficient equipment through the <b>Business Incentive Program</b> .
<b>MIDSIZED BUSINESSES</b>	The <b>Business Incentive Program</b> is available to businesses with up to 1,000 kW of demand per month. Prescriptive and custom cash-back incentives are available on a variety of energy efficient technology including lighting, HVAC, compressed air, refrigeration, VFDs, information systems and more. Businesses also receive the support of an expert Energy Advisor. New Construction is eligible.
<b>LARGE ENERGY USERS</b>	Energy intensive businesses with over 1,000 kW of demand per month or one monthly energy bill in the last year of at least \$60,000 qualify for the <b>Large Energy Users Program</b> . Energy Advisors coordinate with Utility Representatives to provide customized energy savings solutions including incentives and other financing opportunities. New Construction is eligible.
