## Smart Thermostat Incentive

### Qualifying Products List

February 27, 2019

#### Requirements for Smart Thermostat Incentive:

- Offer is limited to Wisconsin customers of **Focus on Energy** [participating utilities](#) based on the home's primary heating system
  - Homes with a natural gas furnace must be a customer of a participating electric utility and gas utility
  - Homes with a natural gas boiler must be a customer of a participating gas utility
  - Homes with an air-source heat pump must be a customer of a participating electric utility
  - Homes heated by liquid petroleum (LP) gas, wood, oil or a geothermal heat pump are not eligible
  - Offer is limited to one incentive per home heating system and two per household
- Must replace an existing thermostat that does not qualify for program incentives
- To qualify as smart, the thermostat must be certified as an ENERGY STAR Connected Thermostat, or otherwise meet the following criteria:
  - Must be Wi-Fi capable
  - Must be capable of internet connection
  - Must feature occupancy sensing, via geolocation and/or motion sensing
  - The above features must be built-in and not require add-on devices or services
  - The application and connectivity service must be free after thermostat purchase
  - Thermostat default behavior must be to set back temperature when house is unoccupied
- Application must be completed within 60 days of purchase

**Incentive when installed with existing equipment: \$75 Incentive**

**Incentive when installed at the same time as qualified equipment: \$125**

- All ENERGY STAR® certified products can be found here:
