

Smart Thermostat Incentive

Qualifying Products List February 26, 2020

Requirements for Smart Thermostat Incentive:

- Offer is limited to Wisconsin customers of **Focus on Energy** [participating utilities](#) based on the home's primary heating system
 - Homes with a natural gas furnace must be a customer of a participating electric utility and gas utility
 - Homes with a natural gas boiler must be a customer of a participating gas utility
 - Homes with an air-source heat pump must be a customer of a participating electric utility
 - Homes heated by liquid petroleum (LP) gas, wood, oil or a geothermal heat pump are not eligible
 - Offer is limited to one incentive per home heating system and two per household
- Must replace an existing thermostat that does not qualify for program incentives
- To qualify as smart, the thermostat must be certified as an ENERGY STAR Connected Thermostat, or meet all the following criteria:
 - Must be Wi-Fi capable
 - Must be capable of internet connection
 - Must feature occupancy sensing, via geolocation and/or motion sensing
 - The above features must be built-in and not require add-on devices or services
 - The application and connectivity service must be free after thermostat purchase
 - Thermostat default behavior must be to set back temperature when house is unoccupied
- Application must be completed within 60 days of purchase

Smart Thermostat Incentive - \$50
