

2020 RENEWABLE SOLAR ELECTRIC (PV) INCENTIVE APPLICATION

Complete this application for systems purchased and installed in 2020. Please return the signed, completed application and copy of sales invoice postmarked within 60 days of installation.

FOCUS ON ENERGY® incentives are limited and are subject to change without notice. Allow 8 - 10 weeks for processing. Visit focusonenergy.com/terms for terms and conditions.

Looking for the reservation form?
Go to focusonenergy.com/solar.

Step 1: Complete your installation

Work with your contractor to schedule and complete your solar electric (PV) installation.

Step 2: Complete your application

Please fill out all fields unless otherwise directed and make sure to sign your application. Incomplete or missing information will delay processing.

WHAT YOU'LL NEED:

- A copy of your invoice for installation of a solar electric (PV) system.
- Photos of:
 - The entire installed solar array (this may be multiple pictures, but must clearly demonstrate the number of modules installed. If necessary, a diagram of the system should also be included)
 - The front of building associated with address
 - The array with building in the background (if not possible, a diagram of system relative to the building)

Step 3: Submit paperwork

Submit your application within 60 days of the equipment installation and connected to the grid, along with supporting documentation, to Focus on Energy at the address below. Please allow 8 - 10 weeks for processing and retain a copy for your records.

Focus on Energy – Renewable Incentives

Solar electric (PV) system requirements

System-specific solar electric (PV) requirements

- Eligible models must be selected from the qualified PV module product list found at energy.ca.gov/programs-and-topics/topics/renewable-energy/solar-equipment-lists.
- Eligible inverters must be selected from the qualified grid support inverters product list found at energy.ca.gov/programs-and-topics/topics/renewable-energy/solar-equipment-lists.
- System must be installed within 90 degrees of due south.
- System must be installed with a panel tilt between 10 - 50 degrees.
- System must be installed with 10% or less obstacle shading, per an industry accepted tool.
- System must have a minimum of a five-year warranty.
- Incentive cannot exceed cost to customer.
- Both modules (panels) and inverter must be installed to receive an incentive.
- In order to receive a commercial incentive, the system must be connected through a non-residential rate meter.
- System must be purchased new. Resale equipment, new parts installed in existing equipment, or equipment that is rebuilt, rented, received from insurance claims, received from a warranty, or won as a prize does not qualify.
- Focus on Energy will only pay one incentive for each technology per site per calendar year. Incentives paid on this application cannot be claimed on another Focus on Energy application. Similarly, incentives can only be paid to one person or entity.
- System must be installed by a qualified contractor.

Residential Customer Solar PV Incentives

Installation Type	Incentive
Single Family Home	\$500 per system

Business Customer Solar PV Incentives

System Size in kW (DC)	Incentive	Max Incentive
Up to 5 kW	\$200 per kW	\$1,000
5 - 10 kW	\$1,000 + \$150 per kW above 5 kW	\$1,750
10 - 100 kW	\$1,750 + \$125 per kW above 10 kW	\$13,000
100 - 300 kW	\$13,000 + \$100 per kW above 100 kW	\$33,000
300 - 500 kW*	\$33,000 + \$85 per kW above 300 kW	\$50,000

*Solar PV systems 500 kW and above will be capped at the maximum incentive of \$50,000.

Additional incentives are available for agricultural producers.

- Business customers classified as agricultural producers will qualify for an **incentive match up to \$10,000**. Agricultural producers are defined as “businesses engaged in the production of grain, livestock, milk, poultry, fruits, vegetables, bees and honey, fish, shellfish, or other common agricultural products including greenhouses.”
